How to use:

- Use one 9V alkaline battery
- Remove insulated sheet before use
- Place battery before connecting to the phone
- Talk time is 50-90 minutes depending on the condition of phone and its battery pack
- Most phones listed can talk immediately after connecting; however, some phones will talk 3-5 minutes after connecting
- Always remove charger connector from the phone when the display panel is blacked out

Attention:

- Do not disassemble the charger
- Use this charger only when the phone battery pack is flat
- Use new dry 9V alkaline battery to ensure maximum performance
- Hold the charger tightly if talking on the phone during charging
- It is not abnormal if the battery gets warm during charging
- Do not connect if not in emergency condition
